Mary said this special meeting was called to discuss a utility account, #221. Christina and Tim Hedges were present and asked Council if there was anything they could do for them so they could get the water turned on and move into the property quickly. \$1,105.67 has been assessed to the taxes, and there is about \$71.16 due currently that has not yet been assessed. Mr. Hedges said the house has really put them back as far as fixing up. Council discussed the situation.

Lowell made a motion to leave the \$1,105.67 assessed to the taxes, have the Hedges pay the \$71.16 currently due, and copy the current \$1,105.67 account to a different book (999-221) in the utility system. Once the taxes have been paid, then that account will be paid off. Garry seconded. Roll call vote: all YES. Motion carried.

JoAnn made a motion to adjourn at 7:28 pm. Lowell seconded. Roll call vote: all YES. Motion carried.

Respectfully prepared by,

Aaron Reedy
